Dear Judy Matthews:

I spoke to Jocelyn Boyd this morning and she suggested I send this correspondence to you regarding Docket Number: 2004-41-C.

Verizon Wireless has been able to meet the FCC NRO requirements for getting additional numbering resources and at this time, no longer has the need for a safety valve waiver.

Therefore, we are requesting that Docket Number: 2004-41-C Verizon Wireless's Application for Additional Numbering Resources be closed.

Please contact me at Joanne.Edelman@verizonwireless.com, if you have any further questions.

Sincerely,

Joanne Edelman
